Why do you need an IRU Certified DGSA?

The Trainer

Dr.Ivan Schmelzer is a Medical Doctor and MSc in Molecular Biology. His passion in chemistry and dangerous goods has led him to become a Certified Consultant with the International Road Transport Union (IRU) Geneva. With more than 25 years of experience in DG related training and consultancy, he leads the UN Delegation on the UN Sub-Committee of Experts on TDG as a Technical Consultant. He serves as the chairman of the H-DGP (Hungarian Association of Dangerous Goods Transportation Instructors and Safety Advisers) since 2021

A Dangerous Goods Safety Adviser (DGSA) is a person certified to provide advice on chemical organization activities of Consignment, Carriage, Packing, Loading, Storage, Blending, Filling or Loading/Unloading of Dangerous Goods; to monitor compliance with legal requirements and to ensure the preparation of an annual report; and to assess the risks of transporting dangerous goods and help prevent these risks for the organization concerned. The Agreement Concerning the International Carriage of Dangerous Goods by Road (ADR) mandates that these organisations must appoint a DGSA. This globally recognized certification is essential for ensuring safety and compliance in all operations involving dangerous goods

Competitive Edge with DGSA Certification

Proximity and Accessibility: Without the disruptions and time constraints associated with international travel, more local companies can now access world-class training right at their doorstep

Cost Efficiency: Delivering the IRU DGSA certification program in Malaysia will save about 40% as compared to the training costs abroad

Immediate Relevance: The curriculum complies both global standards and local regulations, ensuring that your team is well-versed in the specific challenges and requirements of the marketplace internationally or locally

DGSA Certification in Malaysia

Department of Occupational Safety and Health (DOSH) have reverted with their letter of support to have not only the SHOs, but also the CHRA assessors serving the chemical industry to undergo this DGSA National Upskilling Programme. The industry, through Chemical Productivity Nexus (CPN) has engaged the IRU Representative Office in Malaysia and imported the UNECE - DGSA programme into Malaysia

Comprehensive Training for Comprehensive Safety

DGSA Orientation Class
for all Registered Participants **PRIOR** to Course Commencement

The 7-day DGSA certification course is targeted for senior and experienced operational & HSE personnel responsible for compliance and safety of operations.

The ADR- DGSA covers:

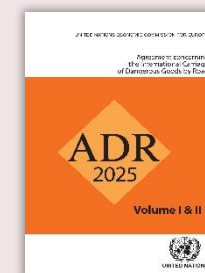

- Regulations & Requirements
- Classification and Packaging of Dangerous Goods
- Documentations
- Personal Protection and Safety Equipment
- Vehicle Selection and Marking
- Training and Compliance
- Annual Report
- AFAFGIT – ASEAN Protocol 9

Don't miss the opportunity to elevate your company's safety standards and operational efficiency. Limited seats are available for HRDC levy contributing enterprises. Equip your team with the skills and knowledge they need to navigate the complexities of dangerous goods transportation safely and effectively

All participants will receive the ADR 2025 Orange Book Vol I & II upon successful registration with IRU Academy & HRDC Malaysia

Training Fee: RM 21,305
(Excluding SST)
(Fully Claimable under SBL KHAS)

Pioneer batch of IRU DGSA in MALAYSIA - Oct 2024

Their views on the DGSA Programme

"I have learned a lot in the DGSA training, and this is a very good training and hope many more people can join the class"

NG KEL VIN – EHS Manager
Tiong Nam Logistics Solutions. Shah Alam.

"In the beginning of the class it was a new learning and by end of the class I understand what the concept is, and how to apply this. This is good for the Malaysian Chemical Industry"

MHD YUNUS BIN MHD YUSOP
Group HSE Manager
Malay-Sino Chemical Industries Sdn Bhd.

"I feel very good and useful on how to use compliance on transport of dangerous goods on road and safety of driver, other road users and environment. Hopefully I will have another chance to attend this course and learn more"

ABDUL SATTAR BIN ABDUL KADIR
Dangerous Goods Trainer / Consultant

"Saya adalah salah seorang peserta kumpulan pertama DGSA di Malaysia. Secara kesimpulannya, saya amat berpuashati dengan perjalanan dan isi kandungan program ini dan semoga anjakan paradigma yang akan datang memberi manfaat dalam pengurusan bahan berbahaya di Malaysia"

MOHD SHAZWAN BIN JISMI
Petroleum Inspector, DOSH Putrajaya.
